Body moisture passes out through the breathable laminate

# MASCOTEX®

Mascotex® is a waterproof laminate that is placed inside the polyester outer of a garment. It is this laminate that provides the waterproofness to the fabric. As with all MASCOT products Mascotex® has been thoroughly Tested to Work so we know when you buy a Mascotex® garment you receive the best protection from the elements. The laminate is also breathable providing a waterproof yet breathable fabric. Mascotex® fabric is approved to EN343, the European Norm for Protective Clothing, measuring protection against rain. Mascotex® achieves a Class 3 classification, the highest and best classification a fabric can receive. All seams are taped to make them waterproof as well. As soon as you pierce the fabric it removes the waterproof properties so we don't recommend you embroider Mascotex® garments. So if you see the

Mascotex® logo in this brochure you can be assured of 100% waterproof protection.

Mascotex® is a registered trademark of Mascot International A/S

**MASCOT® Ovar Trousers 08179-254**

**CORDURA®**  
BRAND  
F A B R I C

We know from our rigorous testing procedures that there are areas on our garments that require that little bit extra when it comes to reinforcement and durability, areas that come under constant strain and wear every day like knee pad pockets and holster pockets. To make our strong durable products even stronger and last even longer we have teamed up with INVISTA® and use their "best in class" fabrics in many of our products. CORDURA® fabric is world renowned and INVISTA® to, have stringent testing methods a fabric must pass before it earns the CORDURA® brand name. Mascot uses primarily 1000D CORDURA®, which is the longest established product in the CORDURA® brand range. CORDURA® brand fabric - For maximum durability and for toughness that lasts and lasts. Look out for the CORDURA® brand logo throughout this brochure.

CORDURA® is a registered trademark of INVISTA® for durable fabrics

### SO JUST HOW STRONG IS CORDURA®?

MASCOT put it to the test to find out how 1000D CORDURA® fabric compares to other commonly used fabrics. Results of fabric abrasion tests according to ISO EN 12947 clearly show the durability of CORDURA® fabric. Note CORDURA® fabric is shown after an amazing 300,000 turns, you can hardly see any change. All other fabrics are shown after 50,000 turns.

100% Nylon plain weave 160g/m<sup>2</sup> after 50,000 turns

65% Polyester / 35% Cotton twill 310g/m<sup>2</sup> after 50,000 turns

100% Cotton twill 355g/m<sup>2</sup> after 50,000 turns

CORDURA® fabric in canvas construction 200 g/m<sup>2</sup> after 300,000 turns
